

LET'S MAKE ANYTHING POSSIBLE!!!

You can help a sick or injured child with a gift to Children's Hospital Foundation of Manitoba. Since 1971, with incredible donor support, Children's Hospital Foundation of Manitoba has raised more than \$265 million to help children get the best care experience possible by funding leading edge equipment, improved healthcare spaces, and child and family-focused programs in hospital at HSC Children's Hospital – Manitoba's only Children's Hospital. The Foundation also supports more than 300 world-class pediatric medical researchers, at our Children's Hospital Research Institute of Manitoba, involved in nearly \$20 million of research and clinical trial activity each year with the goal of ground-breaking cures and clinically-proven supports for pediatric care in Manitoba and around the world.
